jonas schmedtmann, Udmy

Full stack developer Bootcamp 2022
Andrie Neagoie, Udmy

2020-2023 Bachelor Of Science
Maharishi Dayanand Saraswati University, Ajmer

Projects

- **THE WILD OASIS** https://the-wild-oasis-ashok.vercel.app

It's a user-friendly hotel management app, simplifying tasks like sales stats, cabin & user management, bookings, and lots of customization options. Incorporates secure authentication, database storage, and a cool dark mode feature. And so much more.

- **REACT PIZZA-APP** https://react-pizza-app-ashok.netlify.app

This is a user-friendly pizza ordering React app. Users can explore pizzas, add to cart, adjust quantities, and proceed to checkout. The app integrates React-Redux for state management, React-Router for smooth navigation, and Tailwind CSS for a stylish, responsive design. Upon confirmation, users receive an order ID for tracking.

- **WORLD-WISE** https://worldwise-ashok.netlify.app

The app features an interactive world map displaying user-added cities, a city list with detailed information, and enables users to add, edit, and remove cities. City data persists across sessions using local storage. For more information, visit the GitHub repository (https://github.com/Ashoka2002/worldwise).
